Professional Experience and Curriculum Vitae
I am a Senior UI UX Designer & Wordpress Developer with 13+ years of experience. I'm a passionate individual who isn't afraid to speak his mind and stand up for the design, product and end user. I'm actively engaged in all parts of the process from planning, creative, ideation, user experience, strategy, design, animation and sometimes a bit of development and execution. I work best in a senior/lead creative role, able to review and finesse all stages of the process. But also still love to push pixels on the regular.
