## Professional Experience and Curriculum Vitae

Manon Boyer 's career began in the world of fashion. Her images started being published in magazines in Quebec, in the United States, Hong Kong, South Africa and seen in the advertising campaigns for Bedo, Blackberry, Rogers, Macy's, Air Canada, CGi and many others... She travels freely between fashion, advertising and lifestyle photography. She also retouches meticulously her photos. And recently she rekindled the pleasure of photographing underwater and it is her absolute favorite! She loves to travel to get an eyeful of new sceneries, but she lives in Canada where she enjoys freedom and the 4 seasons. "Celebrating life through my images has always been my objective and that, since I discovered photography as a teenager. I love my job because it moves and it changes just like fashion! I learn on every mandate, I perfect myself with new techniques and refine my knowledge, constantly wanting to learn more and go further". Her most recent images were shot for the FW 2014 campaign for BEDO.<http://www.manonboyer.com>
