Professional Experience and Curriculum Vitae

Hi my name is Matt Del Biondi, I'm a graphic designer from downtown Toronto. I am a happy and hopefully funny guy that loves the design world. At my last job at Icon Legacy I have done magazine ads, logos and websites. As I was the only designer there I took on the role of lead designer as well as print supervisor, I helped solve problems with incredible speed and we met the needs of our clients including AMC, Virgin Mobile, Grolsch, Guess, Ketel One, Moroccan Oil and the Tiff festival in Toronto. My analysis, organization and methods of visual solutions are innovative and relevant to today's society.

I am very knowledgeable with Adobe Creative Suite and I have been illustrating for a few years now, working with mac based adobe programs. I have worked with marketing departments and can work with briefs and brainstorm new ideas in a team or individually. With all the projects I get, I feel rest assured that I have the right skills to manage my time wisely and complete the tasks and timelines.

My portfolio is available on my website below; feel free to take a look around.

Graphic Designer | R.G.D.
Corporate Branding Design

I'm visual problem-solver that has enjoyed years of freelancing and working with suppliers to create beautiful & functional designs. I'm techno savvy and constantly being creative in my pastime. My analysis, organization and methods of visual solutions are innovative and relevant to today's society. I love to specialize in corporate branding design and I continue to try and help in developing structure and visual identification in leading companies.
