Professional Experience and Curriculum Vitae
I trained as a photographer in Florence and at the International School of Graphic Arts in Venice. I moved to the UK and gained a BA in Design Studies and a Master Degree in Fashion Studies at the London College of Fashion.

My creative practice is a balanced combination of art and design, which I define as "a voyage of discovery, enchantment and experimentation". I document what I define the beautiful decadent, people, places and situations that are often overlooked in this fast paced society.

My photos are often the starting point of a new collection of printed textile designs for exclusive interiors, where traditional and digital techniques blend together to create atmospheric interpretations of nature and vibrant semi-abstract compositions. I have exhibited my photographs in prestigious art galleries in the UK, in continental Europe, USA and as far as Japan. Last year a large body of my work was shown in a collective exhibition titled We Are All Photographers Now! at the Elysee Museum in Lausanne, Switzerland.
My images are timeless and spellbinding. I love photography for its power and immediacy to capture and convey emotions, the present, its beauty and hold it in time.
