Professional Experience and Curriculum Vitae

Michael Cassius is the founder of creative studio, Cassius. Based in Melbourne, Cassius has been producing high-impact designs for web and print for over a decade. His long journey from junior to senior designer across numerous agencies around Australia has seen him work with a vast array of household brands in the fashion, finance and retail industries.

Today as the principal of Cassius, he specialises in 'emotive' works, which, "should resonate a solid and clear message". It's no secret that his intimate understanding of developing brand loyalty and intuitive experiences has led to a high demand from national and international organisations.

Previous Clientele

Michael is also well known for his skilled contributions to local and international charities and not-for-profits. This year he accepted the invitation to join the board of 'Tunes for Change' — an established not-for-profit that works alongside celebrated music artists such as Nick Cave, for causes of human, environmental, sustainability and media accountability.

As a result of being aligned with, Greenpeace, US based Avaaz.org and our very own political thorn, GetUp!, has naturally positioned Michael as the go-to-talent for charities, politicals and not-for-profits — not to mention the growing base of new and established music artists.
