Professional Experience and Curriculum Vitae
Hello my name is Mirna, or you can call me Nana.

I love everything pretty, from a glossy editorial of Vogue that have models with seamless beautiful makeup and pretty frocks to daily normal pedestrian with effortless natural beauty walking down the street.

I am fascinated by how just a little touch of makeup can beautify someone’s appearances. My fascination brings me to study the art of makeup.

I love being a makeup artist. I love seeing women transformed, radiating confidence and feeling empowered after a makeover.

My most favourite items are fake eyelashes, they can intensify eyes just by volumising your eyelashes.

So whether you are a bride to be looking for a makeup artist for your wedding day, or you simply have a special occasion that requires a great look or you would love to learn the tricks of the trade, I'd love to talk to you.
