## Professional Experience and Curriculum Vitae

Louise Rosenkrands aka Miss Lotion was born with a pen strapped to her hand. Drawing is a part of everyday life for the Danish-born artist who resides in Copenhagen. She draws and paints for recreation and because she simply can't help herself. Miss Lotion works with illustration and visual art, with clients in the advertising, fashion and editorial world. Originally she is an educated graphic designer, but after graduation she found herself taking direction towards illustration and now mixing the two disciplines to form a clearer language.
