Professional Experience and Curriculum Vitae

I'm a 21 year old artist, currently doing a BA Fine Art Degree at Anglia Ruskin University in Cambridge, UK. Previous to this i had done the Btec 1st, National and the Foundation in Art and Design.

I'm from Essex, UK from a reasonably small village, at the minute i am working through a stage of what i have had described to me as "Nouveau Destructive Op Art" this is mostly my more recent work that you will see on here dated from September 2010 onwards however the work previous to that i still have an interest in and try to come up with new ideas to possibly collaborate the Op art side and the installation side of my mind.

if you want to contact me feel free, i am new on here so more of my work is on my deviant art page and i can also be contacted through there aswell.

Previous Clientele

Please kindly get in touch for more information.
