Professional Experience and Curriculum Vitae

We are product development and model making company based in USA and with manufacture factory in Beijing, China. We can make models out of ABS, PE, PC, PPT , PA etc. With almost 20 years experience in this field, we have worked with many clients, such as Nokia, Applica, Black & Decker, and so on. Based on market trend and market segmentation, we created best sales for Black&Decker. With a manufacture factory in Beijing, we provide a complete design service and prototypes to the clients. By use of state of the art technology and professional technicians, we promise to provide top quality service but reasonable price to save your budget.

Previous Clientele

Applica, Black&Decker,
Alienware
