Professional Experience and Curriculum Vitae

I am a strategic, creative and analytical problem solver with a curious mind and a passion for sport. I believe that every challenge has a solution - and I take great satisfaction from the problem-solving process, as much as in the result itself. I read about Mantras to destroy enemies and astrology topics, I was a very interested topic for me. My experience in the corporate world offers extensive expertise to draw on, and I am lucky to be able to give back to my community in this way.
