### **Professional Experience and Curriculum Vitae**

My experience in the design environment further solidified and strengthened my positive character traits. I pride myself at being strong willed, vibrant, artistic, self-motivated individual with good communication and interpersonal skills. As an industrial designer I developed resourceful, creative thinking with quick grasp of new concepts and possess strong leadership qualities.

I had the opportunity to gain substantial design experience in 3D Studio Max / V-Ray Renderer that further complemented my design competence in AutoCAD, Adobe Illustrator, Pro-Engineer, Corel Draw and Photo Shop. As such I believe that I can significantly contribute in any creative industrial design studio setting. Enthusiasm, commitment and ingenuity that I tend to exhibit will add to the value that I can bring to such working environment.

## Awards and Accolades

University: Belgrade Polytechnic University Degree: Bachelor of Industrial Products Design

Year Completed: December 2009 Academic Record: Available on request.

I chose to complete a bachelor's degree in Industrial Design due to my strong artistic streak and creative personality. This choice allowed me to develop important skills prior to starting my working career. These include:

Communication and Leadership Skills:

My tertiary career helped me extend my written and verbal communication skills due to the fact that I was expected to articulate and present all my design projects in a polished, holistic and professional manner. Excellent result in final year project is a testimony to this.

Creative thinking and research skills:

The Industrial Designer curriculum at Balarades Relytase being diversity along agreat emphasis on developing one's abstract thinking and the translating translating the translating translating the translating transla www.thecreativefindercondently and as part of a team. I have thus completed many successful projects and assignments at university. I often assumed the role as an

partive lead and was able to communicate ideas effectively
