Professional Experience and Curriculum Vitae
Hiroaki Yokoyama : Born in 1977, in Okayama, Japan. After studying architecture, became a free-lance DESIGNER in 2004. Established "morld" in 2005. "morld" produces CI/Websites, illustrations, drawings, printed materials etc. based in Tokyo. I think people's desire to communicate directs various activities in their lives.

"I often see societies built upon empty values. Designing in such contexts, I try to reconsider the values. 'm'orld comes from this concept: rolling over the 'w'orld."
