Professional Experience and Curriculum Vitae

Mozaik's unique combination of marketing expertise, leading edge technical intelligence and inspiring creativity ensure delivery of high-end online and offline experiences.

Our daily challenge is to conceive professionally designed websites with maximized brand impact and innovative interactive experiences. Respecting yet defying technological limitations, Mozaik's intelligent web design principles, well managed development process and expert team, ensure the creation of websites with a distinctive design concept ingeniously applied during the development phase.

Previous Clientele

<http://www.onassis.gr/en/>

Institutional yet modern and innovative perspective, the contemporary online presence of the Onassis Foundation inspired by Mozaik proves a true desire to go forward. The new website offers visitors a quick and easy navigation, ensuring a friendly on-line experience where viewers can easily reach all useful information. Informative nature of the website provides users a deep cultural, historical and associative insight.
