Professional Experience and Curriculum Vitae

I am Tom Mead, my rubbish pseudonym is Mr Mead...but it seems to work in the context of my work.

I love weird stuff, i love horror and i love drawing things that creep me out but i don't know why...

My main aim in art is to make me scared, and animal people are my main phobia....so that currently is my theme.....They are becoming a mutant family that i can't control, and for once i am excited about what i do..not because i think it will get anywhere, just because i know at some point some of my inner demons maaaaay be vanquished....

I work in Jamaica street studios in stokes croft, bristol. I love it, and if i had the means to live here i would.

MR MEAD

Previous Clientele

I am new to this world, i draw stuff and sometimes people buy it.

I used to be an animator...but those days are gone....

Awards and Accolades

I don't use cv's, and it would make me look worse if i did. You don't get art work from C.v's, and if you do then this industry is going wrong....

Awards and Accolades

My film got into PISAF 2008 and a few other film comps.....

Its called 'cyren'
