## **Professional Experience and Curriculum Vitae**

Left brain + Right brain

Creative talent and business savvy. It's what separates me from the pack. And it's a winning combination that speaks for itself through the work and the ability to drive business goals farther.

A lot farther.

## **The Passion**

For what and who for. Fusing strategic vision, talent and passion, my work consistently surpasses client expectations and ROI. I've proved it through branding, web, and video for clients such as the Hilton New York, Everything But Water, Sunshine Networks, Recreational Factory Warehouse, Del Monte Fresh Produce, and The Home Depot Supply. And along the way, these efforts have been recognized with quiet a few awards.

## **Top Hats to Thinking Caps**

As a Creative Director, I excel at many roles—from driving new business initiatives, developing client strategy, brainstorming and art directing national campaigns to inspiring the team to perform at their very best. Every day.

## **The Full Monty**

Talent + Passion + Experience + Smarts
