Professional Experience and Curriculum Vitae

Prologic First UK is privately owned company having experience in delivering end to end technology solutions to the hospitality industry across the UK. The latest innovation and development of this company is mycloud hotel management system. It is packed full of smart technology which we keep improving on regular basis, the system is designed to be everything a hotel owner needs to manage a property, connect to international guests, and convert direct, commission-free reservations at every opportunity in turn increasing profits.
