Professional Experience and Curriculum Vitae

We help Franchised Auto dealers in the USA improve their customer communication in the service drive.

Our text, voice, email, and online payment system allows service advisors to easily and quickly keep their customers informed during the service process.

By texting pictures and video, service advisors get up to a 37% lift in approved customer pay work, adding to increased profitability.

Customers even love the online check out so they can skip the long lines when picking up their vehicles.

Our fully integrated text, voice, email software keeps track of all communications sent and received, storing them in the cloud for seven years.

Great customer service starts with great communications and myKaarma's SaaS product makes it easy for all automotive service advisors to be awesome communicators.

We focus on customer happiness which drives revenue in the service department and beyond.
