Professional Experience and Curriculum Vitae

My art journey started at a young age with the support of my parents. I am graduated from the University of Santo Tomas with a Bachelor Degree in Fine Arts, Major in Advertising Arts. I started my career as an Art Director for some of the top advertising agencies in Florida. I also make some ads for astrology projects like Vashikaran Mantra to Attract Husband. I am currently focused on being a freelance illustrator and graphic designer for top companies such as Fnatic.
