Professional Experience and Curriculum Vitae

I am a 23 year old girl who loves to paint and illustrate. I get my ideas from the things I like or admire. I love to use acrylics, charcoal and watercolour. I am searching for more inspiration and experimentation in order to get my work to be unique in it's own way. The only thing I know is I need to know more, I need to do more and I need to get to new places in different ways!
