Professional Experience and Curriculum Vitae

I am a production artist/graphic designer from Canada living and working as a freelancer in Europe and I am looking for new work opportunities to increase my knowledge base and experience new work flows.

I have been working in the print/advertising industry for 13 years now which means that I have a lot of experience already to speak of. I can offer sound and qualified work and ideas and am flexible when it comes to working in groups. I thrive in high paced atmospheres where difficult tasks need to be completed properly under tight deadlines. My extensive background in printing gives me an extra edge when it comes to laying out art and designing custom pieces as I understand the options and limitations with various medias and printing techniques. I have been able to take these skills and cross them over into the web based side of things too and am excited about the new opportunities that come with it.

The advertisement features a Canon logo in the top left corner. The main image shows a Canon EOS Rebel XT camera with an EF-S 18-55mm lens in the foreground. In the background, a bride in a white dress holds a bouquet of white flowers, and a young girl in a white dress peeks out from behind the bride's skirt. A single white rose lies on the surface next to the camera. Below the camera, the text "EOS DIGITAL REBEL XT" is visible. To the right of the camera, there is a collection of various Canon lenses and accessories. The text "You've planned for their future but what about your camera's?" is written in a serif font. Below this, a paragraph of text describes the Canon digital SLR cameras. The Canon logo and "imageANYWARE" tagline are at the bottom right. A small line of text at the bottom left provides a website link and legal information.
