Professional Experience and Curriculum Vitae

SNIK Studio services a variety of clients in many areas of business, including consumer product development companies, manufacturing and construction firms, and publishing firms. We service companies of all sizes from start-ups to Fortune 500 companies. We take the time to know our clients, to discover their needs, personalities, and budgets, and to design with their needs in mind. To us, design is a puzzle — and to solve it we must come up with the perfect design that meets the parameters provided. Sometimes the final product is just what our client asks for, but often we go beyond that and design the perfect solution that our client didn't even know to ask for.

Previous Clientele

We have worked with hundreds of clients! Here are just a few:

American Greetings
AG Interactive
Luxottica
Purcell Associates
PFAFF

Awards and Accolades

Owners Scott and Nicole Wilson graduated from Miami University in 2000 and began their careers designing product for American Greetings - one of the largest art studios in the United States, and an environment in which the two were able to hone in on a variety of design skills. After several years with American Greetings, Scott and Nicole began SNIK Studio with a focus on branding, print design, and product design. Today SNIK Studio services a variety of clients in many areas of business, including consumer product development companies, manufacturing and construction firms, and publishing firms. The studio services companies of all sizes from start-ups to Fortune 500 companies.
