### **Professional Experience and Curriculum Vitae**

I am NellaD Hughes, basically from USA. I had researched to discover the best Vaporizing products on the market. My advocacy for the health benefits of medical marijuana brought me to Washington State where I had initiated research to discover the best vape pen in the market. I researched hundreds of vaporizer products and finally found a superior quality product based on the ease of use at NY Vape Shop. NY Vape Shop is the most recommended Vape Shop to find quality and stylish vaporizers & accessories at affordable prices.
