Professional Experience and Curriculum Vitae
I have been a jack of all trades. Teacher of HS Biology, Chemistry, Physics, Psychology, AP Studio Art, Computers and Karate for 34 years, as well as Assistant Headmaster and for a brief period of two years Headmaster of a K-12 school. All along I have been drawing and painting, reading on philosophy, religion and have been fascinated with how the mind works. The result is the US patent in parallel computer architecture of a cellular type, for which I am developing a prototype, and presenting it at IEEE conferences.
