Professional Experience and Curriculum Vitae
Born in 1948 in Mishawaka, Indiana and became the high school nerd photographer. All I ever wanted to do was take pictures and it's all I've ever done. I really do love what I do. It's not just a business with me. It 's what I have the most fun doing.
Doing the math, I'm 64. That means I've had a whole lot more experience getting the job done right, on time and yes, within the budget set by those annoying accountants. Look at the pictures. That explains it better than a few ad words.
