Professional Experience and Curriculum Vitae

I'm a British illustrator, now living in Australia but working for clients all around the world. After several years working in advertising agencies in the UK as a visualiser, layout artist, finished artist and art director, I became a full time illustrator in 1986. I've since completed more than 20,000 commissions and worked with many of the leading ad agencies and publishing houses and hundreds of small (but just as important!) clients too. I'm also a co-founder and partner of The Illustrators Agency (theillustratorsagency.com), proudly representing over 60 of the world's finest illustrators since 1996.
