Awards and Accolades

Skills

I have excellent skills with all print based Adobe creative suite programmes from Illustrator, Photoshop, through to InDesign and Quark coupled with hand drawn and craft skills. I also have an understanding of web design, composition, layout and programming.

During my 13 years of industry experience I have worked in many areas of design. I have worked on traditional branding projects, print and collateral materials, packaging design, lithographic print knowledge, screen printing knowledge, vinyl lettering and signage, feature film prop design, event marketing and promotions, display marketing, POP design, creative packaging design and cardboard engineering, digital music release packaging and design. I have also collaborated on many multi-media projects such as websites, animations, feature films, podcasts, audio recordings and short films.

Experience

2000-Present

Various, Freelance Graphic Design, Illustration and Art Direction

Since my graduation from SIADUC in London, UK in 2000 I have worked as a freelance graphic designer, illustrator and art director for various clients and agencies in the UK and the USA. Current and recent projects include gig posters, record sleeves, book covers, branding and logo design, apparel design, packaging design, illustration and art direction.

2004-2012

Binary & The Brain, Partner

For 8 years I was one of two partners in a multi-disciplinary award winning graphic design, illustration and art direction agency. We have worked on many varied client briefs from conception to completion including work in branding, packaging, logo design, photography, typography, layout, signage, strategy and marketing. In 2012 we decided to close our doors to search for new opportunities throughout the creative industry.
