Professional Experience and Curriculum Vitae

I am a graduate of the University of Cincinnati and have recently moved to Brooklyn. Ideally I'm looking for contract/freelance to hire in the NYC area. Although I have been doing independent freelance work for the last few months, I am looking forward to returning to a team setting. My education and work experience have equipped me to adapt quickly to a variety of office settings, and I would love the opportunity to share a comprehensive collection of my work with interested employers in the commutable area.

Education

University of Cincinnati, Bachelor of Science in Industrial Design, June 2003 IDSA Silver Award for best of show, DAAPworks exhibition, 2003.

GPA 3.6/4.0

Ball State University, 1996-1998

Work Experience

Creative Worx Group

Atlanta, GA

April-September 2003

Freelance responsibilities included the development of animations and presentation renderings. Also served as creative consultant in product development and related engineering strategies.

Fisher-Price Brands New York, NY

Fall 2002

The primary focus of the internship was new product development. Responsibilities included ideation, extensive sketching and presentation rendering.

Ethicon Endo-Surgery

Cincinnati, OH

Spring 2002

Member of a three-person team charged with the full redesign of an existing Ethicon product. Responsibilities included concept development, modeling, presentations and prototyping.

Pitney Bowes

Shelton, CT

Spring/Fall 2001

Worked on the new product development team. Responsible for all stages of the design process from sketch development through SLA prototyping.

Libby Perszyk Kathman (LPK)

Cincinnati, OH

Spring/Fall 2000

Assisted members of design, production and client services departments at a 200-employee brand identity consultancy.

Previous Clientele

Strong sketching and hand rendering skills. Rapid prototype experience including multi-axis milling and SLA prototyping. Extensive styrene and foam core mockup experience.

Strong knowledge of Alias Studio Tools and Rhinoceros 2.7 modeling software. Strong

Knowledge of Adobe Photoshop and Illustrator. Animation experience in Flash and Director. 3D animation capabilities in Alias.
