Professional Experience and Curriculum Vitae

Michael Krinke's photographs are recognized throughout the world for their innovative use of lighting, mastery of color, B&W, composition, and perspective. His vision and passion for his work comes from his Love of working with the camera.

Michael has designed his own lighting system (ROF). The system allows him to push his portraits, and still life images to a new and exciting visual experience. Creating strong B&W's and vibrant colors.

Michael brings high energy to the photography profession—helping clients achieve the optimal look for the past 25 years. Comfortable with any photographic assignment and setting, whether in his studio or hanging out of a helicopter, he has handled corporate, advertising, celebrity and fashion shoots and High-speed sports photography of NASCAR.
