Professional Experience and Curriculum Vitae
Oceania Power is a Queensland-based, family-owned business supplying engines, parts, and power systems for marine, mining, agriculture, and construction. As an authorised distributor for Volvo Penta and Rehlko Marine across Queensland and Papua New Guinea, we help commercial operators, OEMs, trades, and leisure customers find the right power solutions. With 20 years of experience, a state-wide dealer network of 25 partners, and a commitment to expert advice and service, we’re your trusted partner in keeping your equipment performing at its best.
