Professional Experience and Curriculum Vitae
The world is beautiful, but photoshop helps - it's true enough, but it's not the whole truth. Sometimes we over-process this world with all the opportunities to do so that we have in this age, and what we end up with is a distorted reality. People are not perfect, however badly magazine covers want to convince us otherwise. But the most surprising of it all is that once we get away from thinking that it HAS to be, there is so much amazing beauty in everything around us.
That is the view I express in my photos. I will do everything I can to make you look like YOU, whether by making you at ease in front of the camera or retouching blemishes in photoshop. But I'll never make you look like a doll. This is my promise.
