Professional Experience and Curriculum Vitae

Adrian believes simplicity is the best poetic drama one could bring to an image. His self-professed nature is all about bringing life to any inanimate subject matter. Ever since graduated from Malaysian Institutes of Arts in Photography in 2001, Adrian has developed tremendous patience and incredible attention for details, coupled with his innate understanding of light, Adrian breathe life into still photography seamlessly. He believes perfection can only be achieved through teamwork, communication and collaboration. Adrian's inspiration stem from surrealist masters like Rene Magritte & Salvador Dali and of course, music! Don't be surprise to hear Radiohead and Greenday buzzing while Adrian is working hard in the studio.
