Professional Experience and Curriculum Vitae

Since an early age creativity has been a passion of mine and during my education music, art, design and film were all subjects that I enjoyed and in which I excelled. This progressed through higher education leading me to study Design and Film Production at University level.

Outside of work and education I have also tried to be as creative as possible. I was a member of a band for 7 years where we achieved many milestones, including being featured on RadioOne, recording a music video and playing over 200 shows across the UK and Europe.

Previous Clientele

Le Bubble Bar, Courchevel 1650
Partypacks.co.uk
The Boot Lab, 1650
FaceUp Promotions
