Professional Experience and Curriculum Vitae
Outdure is an innovative company who design, manufacture and distribute a range of solution-driven construction products, for exterior deck/tile/turf spaces. The contemporary product range is designed for maximum durability and includes ranges of premium decking, exterior tiles and turf which completely integrate with Outdure's award winning QwickBuild structural framing system. The QwickBuild structural framing system is ideal for commercial and residential installations, providing a perfectly level, durable and stable structure for supporting decking, tiles or turf or a combination over concrete slabs, existing tiles or pavers, natural ground and as a floating floor solution over waterproof membranes. https://www.outdure.com/
