Professional Experience and Curriculum Vitae

Mickael « Patiño » Brana is a freelance illustrator and artist born in 1990 in Bayonne, France.

He has developed a unique style with two different faces : the illustration side and the fine art side.

His illustrations are funny, fresh and comic. Whereas his art is more melancholic, weird and expressive.

But they are two sides of the same coin. The whole universe of Patiño is a bunch of strange characters, crazy animals and absurd monsters.

He likes to draw with traditional techniques as well as digital, and always keeps experimenting and adding new things into his work.
