Professional Experience and Curriculum Vitae

I mainly work with traditional media, pencils, paper, pens, watercolours and inks. I still like the idea of having a piece of art you can wave around and say 'I did this!'.
Having said that, I'm no Luddite and use technology to enhance the work (and hide the mistakes).

When I'm not making pictures, I like to write stories for children.

I live and work in Leicestershire, England and have a lovely wife and son.
