Professional Experience and Curriculum Vitae

Diana aka Pigologist is a Singapore born Chinese, raised by aliens, and growing up with people of all colours. Her illustrations are driven by characters and lingered a nostalgic aesthetic that pays homage to vintage, old cartoons, and screen printing-like texture. They possessed strong distinctive shapes and often a stint in abstract. She is a crossover from working as a character designer, for animation and games studios, to fulltime freelance illustrator. Here's the link to get yourself an expensive illustrator~ <http://pigologist.com>
