Professional Experience and Curriculum Vitae

Pillowhead is made up of a visionary duo, Benjamin Robert Stottlemeyer and Candace Renee Ponton, who live and work in Norfolk, VA. Pillowhead was started by Benjamin, who was later joined by Candace, after they found that they both worked better as a team. Candace has a background in fashion design and merchandising, but drawing, painting, illustrating is something they've both been doing since childhood, and feel that there is no better way to express themselves than through their artwork. Having fun is at the core of their design philosophy, and their work has no limits, be it art direction, advertising, elaborate illustrations, editorial, fashion, or digital design. By constantly evolving and adapting, they have developed a very diverse, yet stylistically unique approach to visual media. Seeing is believing.
