Professional Experience and Curriculum Vitae

I am a visual artist, designer, and illustrator with many styles who has worked for various professional clients and participated in many group-shows in the Southern California region under the moniker "Planet Lucid".

When it comes to meeting objectives, I prioritize quickly and I am extremely self-motivated to finish tasks above and beyond expectations. I am currently looking to join a progressive team of creative individuals that think 'outside the box'.

My inspiration comes from immediate surroundings and upbringing. They vary from environmental issues, eavesdropping conversations at coffee-shops, music, nature, sarcasm, spite, relationships, history, & social justice.

With a passion towards the cutting edge, I believe that my personal artistic style in combined with years of professional experience will best be suited at a forward-thinking creative agency.
