Professional Experience and Curriculum Vitae

We are a family run business. Our family has been in business together ever since "The Wall" collapsed and capitalism was allowed in the post communist countries of eastern Europe, including Poland where I am from. A few years after opening our first shop in Poland, I emigrated to the United States to study, while my family continued running our business in Poland. I first earned a Bachelor's Degree from Purdue University and then moved on to obtain an MBA from Kellogg School of Management at Northwestern University in Chicago. I had always wanted to lead my own business, so in 2003 I opened our first office in the USA. Currently, we own a 12,000 square ft. warehouse outside San Antonio, Texas. It is here that we process and distribute several thousand pieces of Polish pottery every month. In addition, our family runs one of the largest warehouses of Polish stoneware in Boleslawiec, Poland where our Polish pottery from various local manufacturers is processed before it is shipped to San Antonio.
