Professional Experience and Curriculum Vitae

As a reliable and experienced partner, Polygon Manufaktur offers photorealistic, high-end, and cost-efficient 3D visualizations for your architectural projects. Impress your clients with architectural renderings for interiors and exteriors, or with 3D animations that bring temporary architecture, trade fair concepts, and competition entries to life.

Whether for architecture competitions, marketing presentations, or client acquisition, Polygon Manufaktur creates compelling 3D renderings that communicate your ideas with clarity and emotion. Vacant properties can be virtually furnished to create inviting interior scenes that reveal the full potential of your space.

Your products and designs are realized in meticulous detail for use on websites, print campaigns, or catalogues — or previsualized as virtual prototypes for review and decision-making processes.

Explore the portfolio below to see selected work samples and learn more about the studio's approach to architectural visualization and CGI production.

Although based in Hamburg, Germany, Polygon Manufaktur collaborates with clients across Europe and worldwide, delivering exceptional 3D visualization services tailored to each project's needs.
