Professional Experience and Curriculum Vitae

With my wild taste in fashion I have tried to search for items that fit my taste when shopping for my daughter. Instead of searching and searching for items that are hard to come by, I decided to create these items on my own and in the process decided to share them with others:)

All of my headbands and pacifier clips are handmade to fit the funky style of today's modern and "funky" mom. All of my items are made with vibrant colors, as well as unique ribbon styles, and fun accent accessories.
