Professional Experience and Curriculum Vitae

I'm an amateur photographer (some would say very) based in Belfast in Northern Ireland. If rumour is to be believed I am the 'Unofficial' official photographer for one of the best projects I've ever stumbled across in the world, ever, the Ohyeah Music Centre is run by legends and will, in its own way, become a legend itself one day. Their website, and a selection of my photos that aren't on this page can be viewed in their galleries - Pop over and have a look.

There be no trickery here. The vast majority of pictures I take come straight from the camera to your screen, there is no photoshopping involved as I genuinely have no idea how the monstrous thing works. The odd time I'll mess about with contrast and maybe crop something down or out (depending on who it is...) Thats it. What you see is what you get. Or what I got, if you know what I mean. Given that I live and work in Belfast I'll answer any reasonable questions, up to a point.

I will also work for food.

Drop me a mail at PunksatonyPhil@gmx.co.uk

You can find me on twitter and facebook so drop by and say hi!
