Professional Experience and Curriculum Vitae

Sue Steele Thomas has been painting automobiles since 1988. Sue's paintings have been exhibited in many invitational and juried exhibits throughout the country. Sue is a Professor of Art, holds a Master of Fine Arts degree from Radford University and Bachelor of Arts degree from SUNY Fredonia. Sue began her art career at the age of five and has continued with the dream of becoming a skilled and master painter. Sue's painting medium is gouache and her intrigue never ends in making each shape flat and smooth. Her paintings have merged nature and the automobile in a colorful juxtaposition of the mechanics of each subject. Sue paints and teaches, both being full-time professions as she continues to produce sensitive and emotive art. Sue's subjects are automotive but she does accept other exciting illustration projects.

Previous Clientele

Road & Track Magazine
Overdrive Magazine, India
OCTANE Magazine, United Kingdom,
