Professional Experience and Curriculum Vitae

Howdy! I'm Raye and I am a graphic designer, lettering artist, and all around design nerd who loves to bring bright and happy colors in my work.

I am originally from North Texas, but now I live with my husband, Ryan, in South Texas. Yay humidity (not)! I love way too many TV shows (Shondaland is awesome), movies (I am a hopeless romantic), books (Harry Potter), and all things graphic design. I went to Texas A&M University and earned my bachelor's degree in Visualization, A&M's degree program for computer graphics including graphic design, animation, web design, and game design. I focused on graphic design but also gained valuable skills and experience in animation and other sides of the design industry.
