Professional Experience and Curriculum Vitae
At Razor Ribbon Creative Group, we continually challenge ourselves to think differently, act strategically and engage creatively. Facing unique obstacles, we know each brand must think, act and react independently; Razor Ribbon was designed to do just that. As a boutique New York City advertising agency, our team was selected based on their ability to identify these challenges and create unmatched solutions. With extensive experience in digital, print and social media, along with promotions and events, we embrace innovation, technology and creativity with common goals; a strong, unified brand identity and measurable results.
