Professional Experience and Curriculum Vitae

I am an illustrator, concept artist and designer working with clients across the globe.

I work for the film and games industries as well as illustrating for books and album art work amongst others.

I also design for industries spanning from R&D to fashion, web design and graphics.

I enjoy accepting diverse briefs and new challenges from clients.

Awards and Accolades

FREELANCE CONCEPT ARTIST, 2006-11:

During this time, work has included:

- Concept art for independent games developers (including character, environment, vehicle design, prop, UI, web graphics design and storyboarding).
- Design consultancy, visual futurology, future mobile gaming product design, web and UI design, and identity branding for global research and development centres.
- Concept art and storyboarding for film and TV.
- Book, card and album illustration for private and corporate clients.
- Digital painting tuition and creative innovation workshops for teachers, students and private clients.

I enjoyed accepting diverse, creative briefs, adapting my style and approach for each one. This helped keep my work fresh, offering new and interesting challenges.

Freelancing has proven my ability to manage and meet project deadlines, improved focus, self-motivation and networking skills.
