Professional Experience and Curriculum Vitae

Rezon is a design off-shoot of Kawamura Hideo Activity Inc. focusing on product design. In Japan in 2006, it was launched for a place where KHA can express original designs and ideas liberally and it begun with a series of lighting designs. It has gone on to include various items and continues to develop new creation. ONOFF is the first lighting design created under the Rezon brand and it won Good Design Award 2006.

Rezon is a created word composed by "Re" & "Zone", and it means Rezon will re-creates the zone we share with power of design to make our life better. And in Chinese character, "Rezon" means "Bow & Respect". Rezon believes that it cannot accomplish its philosophy "make borderless actions with no limit" without any relationship between people and Rezon. For that reason, it was named "Rezon" not to forget the relationship and "A mind of bow & respect" all the time.

Rezon keeps participating in exhibitions in different places around the world and has won an award.
