**Professional Experience and Curriculum Vitae**
I have a bachelor of fine arts degree in studio art, with a minor in graphic design and web design. I have self published two photography books and one illustrated young adult book. I also designed an art and literature magazine called Cantilevers for Florida Southern College. My work experience includes 4 years as a gallery assistant at my college's art gallery, and one and a half years in the printing industry doing graphic design and prepress. I love creating things both on the computer and with my hands, especially when I can do both!
