Professional Experience and Curriculum Vitae

Grew up on an island - still lives on one. Has proudly helped raise three amazing children. Loves challenging work. Doesn't get rattled. Loves negative space and positive people. Visualizes every moment of his life, which he considers a bit of a curse - except when working. Started out as a marine biologist. Creates innocent slice of life imagery or production intensive shoots. Over the years has worked from camera cars, helicopters, camera boats, rigged remotes, scaffolds, cranes, floating in the middle of the ocean - and his own two legs.

Working out of South Florida, Robert has been featured in Adweek and Photo District News. He has been recognized as a Kelly Award finalist, by National Addys and seven times in Communication Arts award annuals. He has done major shoots for Coca-Cola, Budweiser, Yamaha, Ford, Cigna, as well as extensive shooting for tourism, recreation, health care and pharmaceutical clients.
