Professional Experience and Curriculum Vitae

Born and bred in the wilds of North London, I studied at Central Saint Martins and Kingston University, graduating with an illustration degree back in 2004.

My work is predominantly ink based, with the help of my trusty dip pen and brushes - and sometimes the computer gets in on the act too. I draw inspiration from pretty much everything, so watch out if I ever have the pleasure to meet you! I've worked for a variety of clients, have had my work showcased in '3x3, The Magazine of Contemporary Illustration' and have won a bronze award from The Association of Illustrators.
